MOTHER'S BLOOD GROUP: 'B' POSITIVE

BABY'S BLOOD GROUP: 'B' POSITIVE

- **Birth History:** Baby born by EM LSCS on 11/09/2025@5:27PM@RENOVA NEELIMA HOSPITAL in view of maternal thrombocytopenia and positive for dengue fever. Baby cried soon after birth, INJ VIT K WAS GIVEN, IM. Baby developed respiratory distress, hence shifted to NICU for further management.

**BABY DIAGNOSIS:**

LATE PRETERM/ AGA/CIAB/ FEMALE / RD - TTNB

**COURSE IN THE HOSPITAL:**

- **LATE PRETERM/AGA/CIAB/FEMALE:** baby was born at 35+2 weeks of gestation with a birth weight of 2.20kgs, cried immediately after birth, baby developed respiratory distress soon after birth.
- **RD – TTNB :** In view of RD, Baby was shifted to NICU and ABG showed – pH - 7.31, PCO<sub>2</sub> – 44.8, PO<sub>2</sub> – 158, HCO<sub>3</sub> – 22.75, LAC – 2.41. Chest x ray was done, showed – **normal lung volume**. Respiratory distress subsided after 2hrs. Baby was screened for sepsis @6HOL, I/V/O respiratory distress, CBP (HB – 18.4/PCV – 59.8/TLC - 15900/PLT – 2.62L) & CRP (0.62mg/L), Blood culture sent – report awaited. In view of maternal positive for dengue fever, baby was screened for dengue, DENGUE NS1, IgM – **negative**. Baby is maintaining saturations well @ RA.

- **NUTRITION:** Initially baby was started kept NPO in view of antenatal scan showed (FEW LOOPS OF BOWEL APPEAR DILATED WITH INTRALUMINAL DIAMETER OF 9.3MM) and started on IV fluids. Chest X ray with abdomen was done showed – normal. Baby was started on 10ml OG feeds @14 HOL every 2<sup>nd</sup> hrly and as per tolerance paladai feeds were started at 24 HOL. Baby was closely monitored for aspirations and distension. Baby passing urine and motion adequately.
- Attenders were trained to give paladai feeds and shifted to mother side. Baby is euglycemic throughout the hospital stay, tolerating paladai feeds well, no respiratory distress, distension. Hence baby is being discharged in a hemodynamically stable state.

#### check list for the newborn

- Peak weight loss during hospital stay : 3.1%
- Lactation advice : provided
